

KUMMITHA GOPINADH REDDY

Visakhapatnam, Andhra Pradesh — +91 8712228215 — kummithagopinadh26@gmail.com

Portfolio — LinkedIn — LeetCode — GitHub

PROFILE SUMMARY

Computer Science undergraduate with strong foundations in Python, Java, Data Structures and Algorithms, Object-Oriented Programming, SQL, and software development. Hands-on experience building web applications, AI/ML solutions, and academic platforms. Strong problem-solving, debugging, teamwork, and communication skills with a quick-learning mindset and interest in building reliable software solutions.

EDUCATION

Gayatri Vidya Parishad College of Engineering (A)

Visakhapatnam, India

B.Tech in Computer Science and Engineering — CGPA: 8.2/10

2023 – 2027

TECHNICAL & SOFT SKILLS

Programming Languages: Python, Java, JavaScript, SQL

Software Development: Data Structures & Algorithms, Object-Oriented Programming, Software Development, Debugging, Testing, Problem Solving

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, FastAPI, MongoDB

AI/ML: NumPy, Pandas, Scikit-learn, Data Preprocessing, Feature Engineering, Classification, Model Training

Tools & Platforms: Git, GitHub, VS Code, Postman, Streamlit, Render, Vercel, AWS, Cloud Computing

Soft Skills: Communication, Team Collaboration, Adaptability, Quick Learning, Analytical Thinking, Attention to Detail, Eagerness to Learn, Time Management, Active Listening

PROJECTS

Dementia Prediction Web Application | *Python, Scikit-learn, FastAPI*

2026

- Developed an end-to-end machine learning application covering data preprocessing, feature engineering, model training, evaluation, and deployment.
- Implemented a Random Forest classifier with SMOTE and cross-validation, achieving 98.6% accuracy on the prediction task.
- Built a FastAPI backend to serve the trained model and provide real-time predictions through a web-based interface.
- Performed model evaluation and preprocessing to improve prediction reliability while handling imbalanced classification data.

CodeGarage – Programming Learning Platform | *HTML, CSS, JavaScript*

2025

- Built a web platform providing semester-wise academic PDFs, laboratory manuals, and C, C++, and DSA programming resources.
- Designed a responsive and user-friendly interface with organized navigation for efficient access to learning resources.
- Implemented interactive web functionality using JavaScript to improve content navigation and user experience.
- Structured academic and programming resources into categorized sections, making frequently used learning materials easier to access.

AI Interview Bot | *JavaScript, Web Development, AI*

2025

- Developed an interactive web application that simulates technical and behavioral mock interviews for software engineering preparation.
- Implemented an automated feedback mechanism to help users analyze interview performance and identify areas for improvement.
- Designed an interactive interview workflow covering question presentation, user responses, and feedback generation.

CERTIFICATIONS

- Infosys Springboard – Front End Web Developer
- Cisco Networking Academy – Networking Basics
- Cisco Networking Academy – Introduction to Modern AI
- AWS – AWS Cloud Computing Workshop

VIRTUAL INTERNSHIPS

- Google Cloud – Cloud Computing Foundations Virtual Internship
- Google Developers – AI-ML Virtual Internship
- Juniper Networks – Networking Cloud Virtual Internship

ACHIEVEMENTS

- Solved 250+ Data Structures and Algorithms problems on LeetCode and other coding platforms.
- Participated in AWS Cloud Computing Workshop with practical exposure to cloud computing and AWS services.
